EDUCATION

• **Symbiosis Institute of Technology, Pune** *Aug 2022 - Present*
Bachelor of Technology in Computer Science and Engineering CGPA: 8.18

• **Alard Public School, Pune** *2021 - 2022*
CBSE 12th Boards: 79.9%

• **Wisdom World School, Pune** *2019 - 2020*
ICSE 10th Boards: 98.2%

PROJECT EXPERIENCE

• **Artfolio** *Jan 2024 - April 2024*
Artwork and Artist Management System

- Tools and Technologies used: Java, JSWING, MySQL, NetBeans IDE.
- Developed Java Swing application with MySQL integration for efficient artist portfolio management.
- Implemented user interface using NetBeans IDE, incorporating database connectivity for artwork data handling.

• **Lung Cancer Detection** *April 2024 - Present*
Lung Cancer Detection Through CT Scans Using Convolutional Neural Networks, Global

- Tools and technologies used: Keras, Tensorflow, CNN, Machine Learning, Colab
- Developed a Convolutional Neural Network (CNN) to classify CT scan images and used models as well, achieving an accuracy of 87%
- Enhanced model performance by optimizing confusion matrix, resulting in improved overall efficacy.

WORK EXPERIENCE

Project Human City (PHC), Toronto, Canada (Remote) *Currently Working*
Technical Intern

- Assisting in web development for one of three key projects, working with React.js, JavaScript, HTML, CSS, Node.js, and MongoDB.
- Documenting development processes, code structure, and APIs for effective team communication.
- Participating in sprint planning, team meetings, and task discussions, supporting senior developers with troubleshooting and testing.

SKILLS

Languages: Java, CPP, C, Python

Frontend: HTML, CSS, JS, ReactJS

Backend: MYSQL

Technologies: Git, Github

Machine Learning

SOFT SKILLS

Leadership, Agile Methodology, Team-Work, Project Management, Networking

VOLUNTEER WORK

• **Community and Technical Volunteer** *Currently Working*
ISKCON Temple and NVCC, Pune

LANGUAGES

• Hindi
• English
• Marathi
